About This Content

**NOTE: THE MAIN GAME X-PLANE 10 IS NOT AVAILABLE ANYMORE!
PLEASE ONLY PURCHASE DLCs WHEN YOU ARE ALREADY OWNER OF X-
PLANE 10!**

Never before have there been so many objects on an X-Plane airport to discover as with Britain's major airport, London Heathrow. The scenery includes all five terminals and animated apron traffic. The award-winning team sim-wings convinces with a model of perfection for such a Mega Hub!

Find out what commercial aviation is all about by joining the traffic of the world's third busiest airport. The scenery covers around 42 square kilometers in total with fully detailed buildings at the airport, including the new T2 and T2B terminals. Fully customized high resolution aerial ground textures, detailed ground markings and the actual taxiway layout with new rapid runway exits and taxiway links make it a perfect rendition while use of LOD technique will give you the best possible performance.

Great parkour game but wish there was more levels. If you like SEUM or clustertruck you'll love this. This is an awesome way to get into HTML and CSS. My formatting skills were always a little hit or miss and having to check w3schools all the time was meh. This is a neat way to reinforce formatting of different tags into functionable code and I really think this game is helpful. I regret waiting so long with this on my wishlist.. Only real drawback here is a single play through length, which for me was less than 10 hours. Other than that, it was a great game with a cool story and allowed me to relive the experience of playing adventure games in the 90s.. i had some great fun with this game.the battles are fun if not to challenging. and i dont really have any complaints on the game.now i saw some people complaining about bad performance but i have never encountered them or met any one who has.all in all this is a game i enthusiastically recommend.. Fun game! We'll all be in our 70's by the time they get the rest of the lower 48 completed, but its fun. I wish they would go to a 3 state DLC release every 6 months and get rid of 1 state DLC release once a year, would keep my attention better.. I could write a very long explanation on why exactly I absolutely adore this vn, but I'll keep it short. This visual novel is a very fine work of fiction and deserve more attention. The art is astonishing and characters are very well written. Also I keep thinking from time to time about lore and story of this vn and how good it's crafted. Definately check other works of S. A. Welland such as Asher (first in Asher trilogy) and Sunrise.. I have no idea what i am supposed to do.. Bought for 20 bucks, expecting compatibility with the Rift as it claims - but whenever I launch the game it crashes immediately and freezes Steam. Not sure if this has to do with my dual GPU setup or what, but my primary monitor and Rift are on the same GPU so I shouldn't be running into any severe issues like this.

It does work fine through Oculus Home but not through Steam. The game is a ton of fun when it does work, though.

SPACECOM is a space RTS similar to that of "Planets Under Attack" in that you'll build fleets and move them around to capture solar systems. It's easy to pick up and play, I thought, but the different fleet and planet types serve to keep things strategic and interesting, Well worth the asking price of \$14.99.

<https://www.youtube.com/watch?v=ttjd1Ez9LEg>. The classic Christmas song if your looking for a fun song for the holidays it's worth checking out.. Very fun game, very similar to Mario Kart. For this price, this game is excellent!. Having the ability to unlock cars and tracks makes you want to keep playing. My only request would be to add a multiplayer mode at some point.. only comes with 7 puzzles, which are ridiculously easy. Not worth spending the \$0.99 on yet. Wait until they add more puzzles, if they ever do.. A pretty well done look into the back stories of popular MK characters I wouldn't reccomend it to anyone who is not interested in the games. It is not ridiculously violent like the new MKX but there is some blood here and there. I think it would be even better is it tied all of the stories together in an episode about the Mortal Kombat tournament maybe. I still haven't watched Legacy 2 so maybe they do it there. It really quite entertaining and fairly well acted. The highlights for me were seeing Johnny Cages terrible movies, and the first look at baby Mileenas fangs. The director even takes some creative freedoms by showing us what would have happened if Raiden had teleported into an insane asylum on his way to the MK tournament. Why he didn't just zap the guards and teleport away is beyond me but it was still cool to see. 7.5/10 if you are a fan of the games and 6/10 if you aren't. Over all it left me exited for Legacy 2.. GGreat game well done, very addictive
